UV REFLEX E40H-SC/B-NX quality in cold rooms.
UV REFLEX E40H-SC/B-NX is a wall-mounted germicidal device with indirect radiation upwards, with structure in AISI 304 stainless steel, specifically conceived for cold rooms. The inner surface consists in a mirror bright aluminium reflector to increase the reflection of UV rays. Directional black honeycomb filter chan- nels the flow of UV-C rays. The series includes a wide range of models, different according to the UV-C lamp wattages. UV REFLEX E40H-SC/B-NX is provided with a 2.5 m power cable without plug. UV REFLEX E40H-SC/B-NX can be equipped with special control board for operational control, which, especially in the case of installation of several units, can handle switching on, failure alarms, meters and input security check in the room treated. The treatment is immediate and ready to use, maintenance is minimal and mainly concerns the periodic replacement of the UV-C lamp. UV REFLEX E40H-SC/B-NX is entirely manufactured in Italy, with high quality and extremely resistant materials.
